EXPERIENCE

Software Developer Intern

CogniAI - Coimbatore

📅 Jun 2023 - Jan 2024

- Contributed to the development of a patient portal using Angular, PHP, and MySQL.
- Designed and implemented key screens, including patient registration, demographics, and a pay bills section.

Java Developer Intern

Logic Research Labs - Kumbakonam

📅 Feb 2023 - May 2023

- Involved in the development of a pharmacy software application using Java and MySQL.
- Implemented a user-friendly dashboard to display pharmacy details, providing a concise overview for effective management.

PROJECTS

Integrated Dashboard for Multispecialty Hospitals

PHP, MySQL

- Developed an integrated dashboard for multispecialty hospitals using PHP and MySQL.
- Implemented essential features within the dashboard, providing comprehensive tools for effective information management and decision-making in hospital settings.

Student Education Website

HTML, CSS, JS, PHP, MYSQL

- Developed a student education portal, providing a centralized platform for students to access study materials.
- Enabled students to conveniently access and download study materials within the portal.

Granny Go

Flutter

- Developed using Flutter, the app is dedicated to enhancing cognitive functions for geriatric patients through engaging memory games.
- Offers a diverse collection of memory games, including challenges related to daily chores and healthy food recipes.
